CO2060 – Software Systems Design Project

Meeting Notes - Scrum Meeting - Sprint 7 (Week 10)

HOPEDROP - Blood Bank Management System

Group G50 DevDynamos

Meeting #9

Date: Saturday, 21 March 2026

Date:	Saturday, 21 March 2026
Location:	Online (Discode)
Time:	10:00 PM – 11:00 PM
Facilitator:	K.D.Ashen
Attendees:	K.D.Ashen, G.K.G.Sandeepa, R.M.S.S.Kumara, A.W.H.Panchani

1. Agenda

- Backend API deployment to PythonAnywhere free hosting
- Test Login and Sign Up endpoints on live hosted environment
- Review deployment results and identify issues
- Plan next steps for database connection

2. Discussion Points

- Decided to use PythonAnywhere free tier for initial backend API hosting as an interim step before full deployment
- Successfully deployed the Django backend to PythonAnywhere; WSGI configuration completed and static files configuredData anonymization implemented for patient records in PostgreSQL
- Login endpoint (POST /api/auth/login) tested via Postman
- Sign Up endpoint (POST /api/auth/register) tested; new donor account created successfully and stored in the database

- Tested the login and sign up forms from the React frontend and confirmed successful end-to-end flow
- Noted that PythonAnywhere free tier has CPU and bandwidth limits; suitable for testing but not for production load
- Discussed plan to migrate to Microsoft Azure for full production deployment in Week 11 onwards as per project plan

3. Decisions Made

- PythonAnywhere to be used as a testing/staging environment only
- All backend API testing (login, sign up, donor registration) to be continued on PythonAnywhere until fully deployed
- Begin PostgreSQL database connection setup in Week 11
- Frontend environment variables to be updated to point to PythonAnywhere base URL for testing

4. Action Items

Assigned To	Task	Due Date
R.M.S.S.Kumara	Update and develop patient and donor dashboard with necessary components	26 March 2026
A.W.H.Panchani	Document PythonAnywhere deployment steps	26 March 2026
K.D.Ashen	The backend was deployed to the PythonAnywhere free server, where several server-related errors were identified and addressed	26 March 2026
G.K.G.Sandeepa	Begin connecting PostgreSQL database; configure environment variables	26 March 2026

5. Blockers

PythonAnywhere free tier does not support outbound connections to external databases

6. Next Meeting

Scheduled: Not scheduled
